Accessories Tool

Cleaning Cloth

# PIXPRO 360 Stitching Software

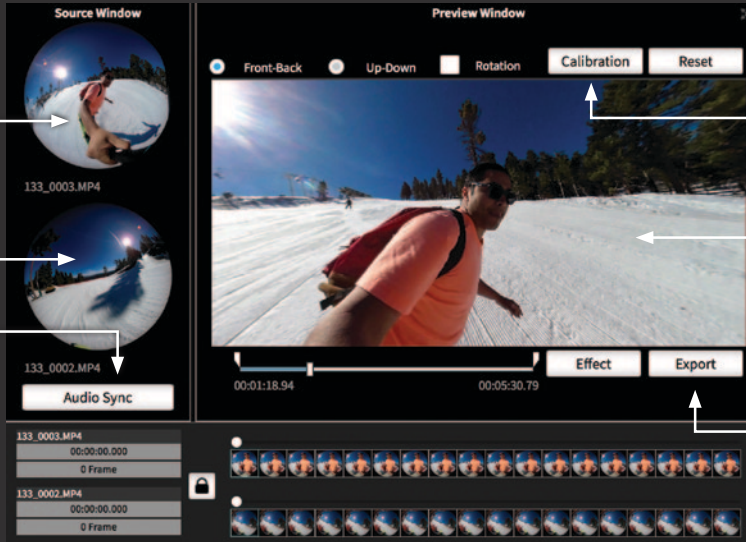

1. Drag and drop File A & B anywhere inside the interface.

3. If you used an audible 'clap' at the beginning of your video, press 'Audio Sync'.

5. If 360 Preview needs adjustments hit the 'Calibrate' button.

2. Drag the 360 Preview Screen to check out the automatic stitching.

4. If everything looks good, hit 'Export'.

360° video files rendered with the PIXPRO 360 Stitch software are compatible with Adobe Premier™, After Effects™ and any Mettle Skybox™ plug-in.
